EXPERIENCE

Mochi Health (high-growth telehealth) / Product Designer (Associate -> Mid-level -> Senior)

San Francisco, CA • Oct 2024 – present

- Bridged product and design; led roadmapping with CEO and designed 20+ features; shipped code for fixes, polish, and tooling.
- Designed a subscription billing system that drove \$2M savings, cut churn by 15%, and automated fulfillment for 88% of orders.
- Retained subscribers 18% longer by designing an order-delay feature that let users push orders back instead of cancelling.
- Increased top-of-funnel conversion by 20% through rapid A/B testing and iteration on intake flows.
- Built a self-updating knowledge layer to help AI navigate the codebase, plus internal tools for product, design, and dev.

University of Washington Information Technology / Product Design Intern

Seattle, WA • Jul 2023 – Jun 2024

- Designed and shipped the first 3 components of UW-IT's first design system; piloted and refined contribution process.
- Designed role-adaptive documentation structure for teams with different technical workflows.

Middlebury College / Program Manager, Innovation Hub

Middlebury, VT • Jul 2021 – Jul 2022

- Managed 12 entrepreneurship programs serving 500+ students.
- Helped secure a \$5M donation through communications strategy and data collection.

Addison County Relocalization Network / Product Designer

Middlebury, VT • May 2020 – Sep 2021

- Co-led a 10-person team to design and ship a mobile app connecting 300+ local farmers with customers during COVID-19.
- As sole designer, drove feature development and iteration with 8 engineers based on feedback from user testing.

PROJECTS

A governance layer for agentic coding • Claude Code • Python • 2026 • [GitHub](#)

A plugin that runs semi-autonomous, self-reviewing, and self-improving agentic coding loops, with tooling for rapid feedback.

A health app that leads with insight, not dashboards • Claude Code/Figma • Swift • 2026 • code upon request

An iOS app that interprets health data with on-device AI. Surfaces and visualizes trends worth noticing; stays quiet otherwise.

AI conversation partner for language learning • Claude Code/Conductor • Swift • 2026 • code upon request

An iOS app that facilitates conversations with an AI partner in a target language and delivers personalized feedback.

A todo list for daily focus and clear prioritization • Claude Code/Conductor/Figma • Swift • 2025 – 2026 • code upon request

An iOS/macOS task manager that uses pairwise ranking to clarify priorities and prevent task paralysis. Currently in TestFlight.

EDUCATION

University of Washington / Master of Science (MS) in Human Centered Design & Engineering

Seattle, WA • Sep 2022 – Jun 2024

Worked with Dr. Kate Starbird to research election misinformation. Co-authored two papers presented at CSCW 2025.

Middlebury College / Bachelor of Arts (BA) in International Studies, minor in Sociology

Middlebury, VT • Sep 2017 – May 2021

Summa cum laude, Phi Beta Kappa; men's swim team.

SKILLS

Tools: Claude Code, Figma, Conductor, Paper, Cursor, Lovable, Framer, Linear

Design: Interaction design, information architecture, visual design, prototyping, design systems, web & mobile, generative AI

Research: Interviews, surveys, contextual inquiry, usability testing, experimental design, qualitative coding
